Subject: RE: Wilcox Oil Company Superfund Site
Date: Thursday, February 11, 2016 9:26 00 AM

Good Day Mr. (b) (6) I wanted to follow-up with you regarding the Wilcox Oil Company Superfund and the information provided via email on January 27, 2016. First, do you have any questions that we can answer for you regarding the site information provided or the general Superfund Process? Secondly, do you have questions or concerns about the request for access form that was also sent via email on January 27, 2016? If you agree to provide us access to your property, please fill out the form, sign on the last page and either email the completed form or mail the completed form to the address listed below. Please feel free to contact me, or Todd Downham of the ODEQ, via email or phone to discuss the site, the request for access, and any concerns or question you may have related to work that is being planned and that has been completed.

Thank you for your continued interest.

Subject: Wilcox Oil Company Superfund Site

Mr. (b) (6) Thank you for your call today. It was good to talk with you about the site. As mentioned on the phone, I am working with Todd Downham of the Oklahoma Department of Environmental Quality to get a better understanding of the site as well as the concerns of the community. Please do not hesitate to call me at 21-665-8143 or 1-800-533-3508, or call Todd Downham, ODEQ, at 405-702-5136, should you have questions or concerns.

Also, we discussed the possibility of EPA obtaining access to your property for the purposes of sampling. Please find attached a blank access agreement for your review. If you agree to allow EPA access, please sign the form and send back either through email or by mail to the address listed below.

Attached for your information is some site literature that describes the site and also describes the Superfund Process. I have also attached some health fact sheets (ATSDRToxFAQs) on the contaminants we know to be present at the site. Additional information can be found in the library.
